WADER

Why is WADER Necessary?

Water Companies need to predict future demand.

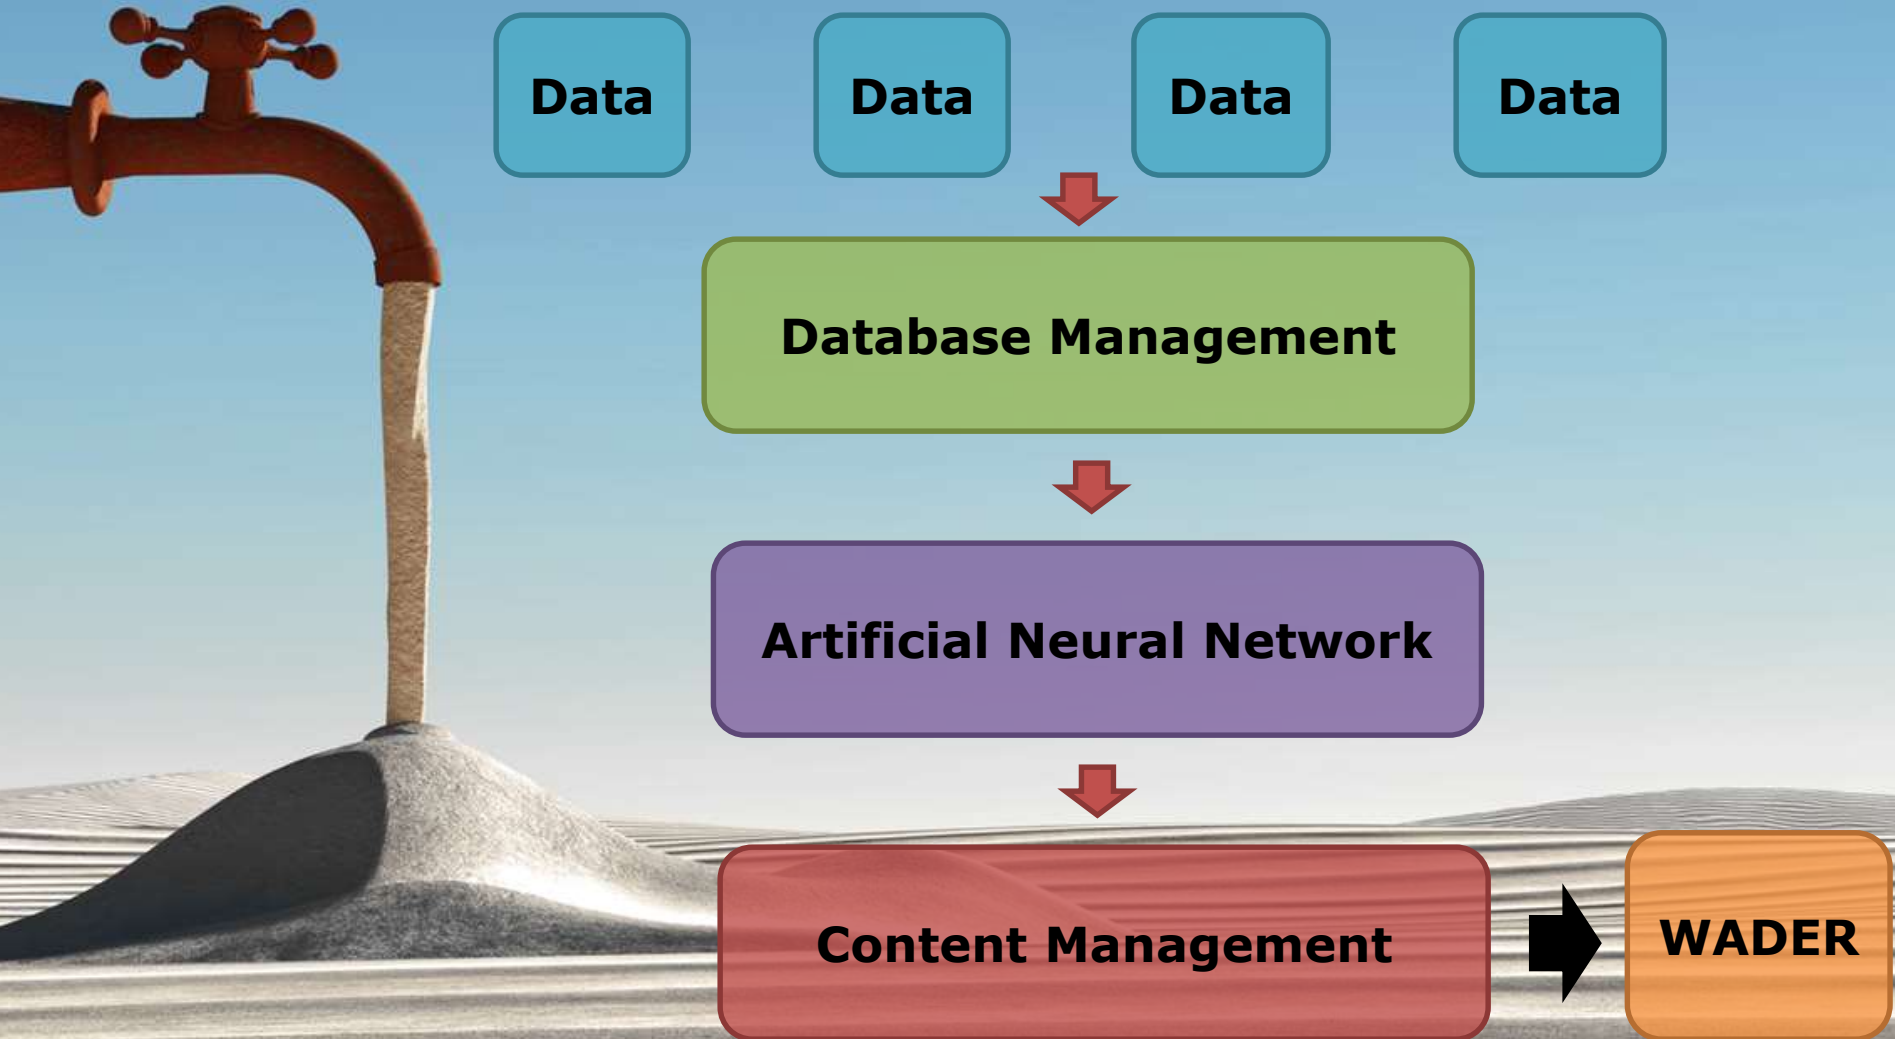

In other words they need to 'Plan'.

Planning is better when you can predict accurately.

Water is a scarce resource, and is becoming scarcer!

What is WADER and how can it help?

Water Advisory Demand Evaluation & Resource Toolkit

Water is a scarce resource, and is becoming scarcer!

What can we expect from WADER?

A better idea of future demand.

Better Planning.

Saving Money.

Saving Water.

Water is a scarce resource, and is becoming scarcer!
