ABOUT ME

I am a highly self-motivated researcher with a strong track record of publications and extensive experience in qualitative and mixed methods. I am passionate about leveraging my expertise in environmental policy and land use to deliver high-impact solutions to issues around conservation.

EDUCATION

PH.D., ENVIRONMENTAL POLICY

IMPERIAL COLLEGE LONDON, UK

AUG 2023

Thesis Title: *“New land managers: opportunities for delivering public goods through collaborative conservation”*

Supervisor: Prof. Clive Potter

- Evaluated UK’s past agricultural policies and identified key economic and policy shortcomings with regards to conservation objectives together with its implications towards land use in the countryside
- Led research team that analysed the “Public Money for Public Goods” principle in EU legislation to determine key elements necessary for ideas to be implemented into policy, leading to 1 peer-reviewed publication
- Collaborated on study that investigated the barriers and policy interventions required to realise the UK’s Nature Recovery Network under the 25 Year Environment Plan, leading to 1 peer-reviewed publication
- Established a network of connections with a diverse range of stakeholders (e.g., DEFRA, the CAAV, The National Trust, AONBs and Wildlife Trusts) to gain a comprehensive grasp of the multitude of perspectives around the rapidly changing agricultural policy landscape
- Conducted mixed method study with over 60 land managers to establish models of collaboration that informs policies on ways to effectively engage different landholders into landscape scale conservation
- Presented research in 3 prestigious conferences in the UK (100+ and 2000+ attendees respectively)

M.PHIL., ENVIRONMENTAL MANAGEMENT

UNIV. OF NEW SOUTH WALES, AUSTRALIA

2019

Thesis Title: *“Impacts of Absentee Landholders on Cross-property Conservation and Production Initiatives: A Case Study of the Central Tablelands, NSW”*

Supervisor: Prof. Graciela Metternicht, Dr. Alex Baumber, Dr. Rebecca Cross

- Collaborated with international researchers to investigate key characteristics of a poorly understood group of landholders and their impacts towards conservation
- Assessed ways in which government agencies can enhance outreach to effectively engage these landholders into conservation initiatives; leading to 2 peer-reviewed journal publications

MASTER OF ENVIRONMENTAL MANAGEMENT

UNIV. OF NEW SOUTH WALES, AUSTRALIA

2017

BACHELOR OF SCIENCE, BIOLOGY

UNIV. OF MASSACHUSETTS AMHERST, USA

2017

WORK EXPERIENCE

POSTDOCTORAL RESEARCH ASSOCIATE

UK CENTRE FOR ECOLOGY AND HYDROLOGY

AUG 2023 – PRESENT

- Part of research team investigating the social, economic and policy drivers influencing farmer uptake of land management practices that will lead to net-zero and wider environmental benefits

RESEARCH ASSISTANT

IMPERIAL COLLEGE LONDON, UK

APR 2023 – AUG 2023

- Collaborated with multidisciplinary research team to investigate the social, technological and policy innovations needed for a food and land compatible net-zero pathway in the UK
- Designed expert interviews with academics from different fields of research to gain a comprehensive understanding of research objective
- Organised and co-ran fortnight meetings and compiled meeting summary

GRADUATE TEACHING ASSISTANT

IMPERIAL COLLEGE LONDON, UK

APR 2021 – MAY 2023

- Delivered 10 lectures and tutorials to the MSc. Environmental Technology cohort. Topics ranged from *qualitative research methods*, *agricultural policies in the UK* to *sustainable food systems*
- Thesis co-supervisor to five MSc. students. Research ranged from landholder collaboration to promote landscape scale conservation to examining the nature finance gap in the UK

DEPARTMENT SEMINAR ORGANISER

IMPERIAL COLLEGE LONDON, UK

JUN 2021 – DEC 2022

- Organised department's weekly seminars and monthly Climate Debates (attended regularly by renowned academics and members of organisations such as IPCC)
- Managed operations for an Imperial College Sustainability Week 2022 conference (150+ attendees including academics, lawyers and an MP)
- Handled the planning and organisation of department's Get-together Event 2021 and virtual Away Day 2021

RESEARCH ASSISTANT

UNIV. OF NEW SOUTH WALES, AUSTRALIA

MAR – AUG 2019

- Collaborated with a team of university and government researchers to investigate the then fledgling Australian carbon market's fit for purpose; leading to peer-reviewed journal publication
- Co-organised workshops and focus groups to assess the economic and social impacts the carbon market had on farm businesses and local communities
- Liaised with Government agencies to prepare and deliver regular government policy reports under strict deadlines

SKILLS

- Microsoft applications (Excel, Word, PowerPoint and Teams)
- NVivo, ATLAS, ti
- Tableau, ArcGIS
- Fluent languages: English and Mandarin Chinese
- Quantitative data analysis (e.g., Factor analysis and Correlation analysis)
- Qualitative research methods (surveys, interviews, Q-methodology, focus groups and thematic analysis)
