

## Hydro-JULES Open Meeting 10th September 2018

The Hydro-JULES programme officially welcomed 85 people to its opening meeting on 10th September 2018. After a formal welcome by Prof. Mark Bailey, Director CEH, those attending were given an overview of Hydro-JULES by Programme Leader Prof. Simon Dadson, followed by an outline of the vision, aims and objectives of the project. Participants were given the opportunity to share their views on the programme's aims and ambitions through interactive sessions in the afternoon, and the meeting generated a number of promising ideas for onward engagement with the research, academic and stakeholder communities.

PowerPoint presentations from the day are available to download here:

[10th September 2018 Open Meeting](#)

[Hydro-JULES WP1 Building a community hydrological model, B. Lawrence](#)

[Hydro-JULES WP4 A groundwater model of the UK? A. Hughes](#)
